Subject: Re: News Clips for April 2

Hi Charlotte,

Yes and I reached out to OPP, Kathi and Darlene, for their input and suggestions as OPP issues news clips regularly. They mentioned other potential vehicles used by the Agency. I just hadn't had time to look into existing vehicles and whether there was capacity for OCSPP to buy into or what impact that would have on OPP's existing process for news clips.

Great idea – I'll see if they have something we can buy into. Rick/Jeff – do you have any concerns/thoughts on whether we should get one service for OCSPP?

Hi Charlotte,

One consideration to add to the mix is exploring whether there is an opportunity to buy into the clipping system that OPA has in place. I believe they maybe transitioning to a new system in the near future. It would be worth reaching out to Nancy to see where they are in that process and what might be possible.

Regards,

Lek

Arnold – we spoke about doing this a while back, have you had a chance to look into whether this is possible for us to get one clip service for OCSPP? Rick/Jeff, what are your thoughts on that? Thanks, Charlotte

So it appears we get lots of clips from OPP and none from OPPT. Can we get a clipping service? Is this hand curated?
